Robert Creamer is the founder of the Strategic Consulting Group a Chicago style mafia criminal slush fund machine disguised as a political organizer. Robert Creamer organization Strategic Consulting Group needs to be investigated by the FBI and Justice Department for illegal political fund raising and numerous other counts.

Creamer, 56, of Evanston, was charged with 16 counts of bank fraud for allegedly swindling nine different financial institutions. He also was charged with 18 counts of tax fraud. ...In fact, the indictment alleged that Creamer 'knowingly utilized the fraudulently inflated balances created at Cole Taylor (Bank) to pay and attempt to pay his own personal salary and discretionary expenses.' Creamer is also charged in the indictment with failing to pay more than \$300,000 in federal income taxes for employees of the group and for himself between 1996 and 2000. Four other counts allege he filed false income tax returns between 1996 and 1999.

Each count of bank fraud carries a maximum penalty of 30 years in prison and \$1 million fine. Each count of failing to collect and pay withholding taxes carries a penalty of five years, and each count of filing a false tax return carries a penalty of 3 years." As a result of his crimes committed as executive director of Illinois Public Action Council, Robert Creamer ended up serving five months in federal prison and eleven months on house arrest.

What is happening in this country? We are standing at the brink of the greatest usurpation of power imaginable – a power grab that will put regulations on everything from our pocketbooks, our banks, our homes, our cars, our utilities, our health and even our longevity.

I am not a believer in conspiracies, but is this prolific power grab — through the President and his czars — all

coincidental or has it all been planned out over the years?

Evidence that is coming to light shows that it has been planned and crafted carefully.

It is scary. Here is a point-by-point diagram of how to take over a country and

Totally control it and its residents — and it is all spelled out in a book written by a convict from his prison cell. No, the book is not “Mein Kampf” and the convict author is not Adolph Hitler.

The book is “Stand Up Straight. How Progressives Can Win” and its author is Robert Creamer, the former head of Citizens Action Illinois who was convicted of tax evasion and bank fraud in 2006, spent a year and a half in prison and under house arrest, and came out with his book ready to publish.

“Stand Up Straight” can be rightfully called a progressive manifesto. It offers a ten-point plan that looks very much like the plan being followed to control coal companies and utilities by declaring carbon dioxide a danger and then, by Congressional fiat, stepping in to regulate all energy plants...or to foist universal health care on Americans and, through it, gain control and absolute power.

Roughly, here are the points Creamer makes and how they apply to a health takeover:

1. Must declare health insurance a right of all Americans and government must provide it.
2. Must create a belief that health care is in crisis.
3. Must create messages depicting private health insurance as a failure.
4. Must form relationships with the business community (such as big pharma, AMA, AARP, Hospital Associations)
5. Must convince political leaders they risk their careers if they don't support health care program.
6. Must foster a process that can ultimately yield consensus. (National Endowment for the Arts urges Hollywood to script TV and movies backing health plan).
7. Must organize a national field program (SEIU, ACORN, MOVEON, AARP) to bring the program to neighborhoods.
8. Must focus on mobilizing Churches and the labor movement for health program.
9. Must leverage connections and resources of all private, public, union, religious groups in order to pass health care and bring about redistributive change.
10. Must raise ample amount of money to assure that all is permanently put into place.

The book urges its progressive followers to raise the emotions of fear, anger,

disgust and revulsion throughout America to get the change and usurp the power.

And it is all written by an ex con who is married to Illinois Congresswoman Jan Shakowsky and who hasn't missed a beat, nor faced any shame, since finishing his sentence. In fact, he's making money as head of his “Strategic Consulting” company. His clients include the AFL-CIO, the United Steelworkers Union, ACORN, SEIU — coincidentally, all contributors to his wife's candidacy and run for reelection in 2010.

He hasn't lost any access to power either. Creamer was an invited guest, along with his wife, at President Barack Obama's first State Dinner, rubbing elbows with the elite decision makers of Washington.

The liberals like him, they really like him. Their names are on his book, with blurbs on how important the book is. David Axelrod and the head of MoveOn.org say it's a great book.

Oh, and in the acknowledgements, Creamer names another person he credits with helping him write his manifesto — the late Chicago radical agitator Saul Alinsky.

If this doesn't scare you, perhaps you ought to buy the book and read it. If that still doesn't scare you, maybe you don't appreciate personal freedom and the rights outlined in the U.S. Constitution.

**

Congresswoman's husband pleads guilty to two felonies CHICAGO (AP) — The husband of an Illinois congresswoman pleaded guilty Wednesday to tax violations and bank fraud for writing rubber checks and failing to collect withholding tax from an employee. Robert Creamer, a political consultant married to four-term U.S. Rep. Jan Schakowsky, could face four years in prison on the two felony counts when he is sentenced Dec. 21.

"In my heart, I know that these mistakes do not define or diminish this good man, or the good work that he has done over the last 40 years or that he will do in the future," Schakowsky, D-Ill., said after her husband's court hearing. Schakowsky has not been accused of any wrongdoing although she spent most of the money her husband stole, most of money went for political payoffs in the corrupt Chicago political machine. Creamer, 58, a prominent Chicago political consultant, was accused of swindling nine financial institutions of at least \$2.3 million while he ran a public interest group in the 1990s.

Creamer told reporters Wednesday there was "no doubt that my actions a decade ago were very foolish and placed myself, my family, the organization and many of those who worked with me at considerable risk." He offered a "sincere apology to anyone who has been affected by my conduct."

The indictment alleged Creamer caused a series of insufficiently funded checks and wire transfers to be drawn on accounts he controlled as executive director of the Illinois Public Action Fund. According to the indictment, he allegedly then used the inflated balances to pay the group's expenses and own salary. Creamer pleaded guilty to one count each of bank fraud and failure to collect withholding tax. In exchange for his plea, prosecutors dropped several other counts. His lawyer, Theodore Poulos, said he hopes Creamer can avoid prison and serve whatever sentence he receives in a halfway house or under house arrest. Schakowsky, who lives in the Chicago suburb of Evanston, said she doesn't think her husband's plea would prompt a primary challenge next year in her heavily Democratic district.
